

Will You Participate in the CMS BPCI Advanced Program?

Before you decide if and how to participate, you need to know if this makes sense for your organization.

Good news! You already have accurate cost data within StrataJazz® Decision Support and a trusted partner with our data, process, and change management experts who can help analyze the data and determine the right next step for your organization.

BPCI Advanced rewards providers who actively invest in innovative strategies to improve quality, outcomes and cost.

StrataJazz Episode Analytics & Continuous Improvement leverage Decision Support data to help you understand care variation, cost, quality and margin for your defined population.

Exactly the information you need to make the RIGHT decision on BPCI participation!

STRATA BPCI ADVANCED READINESS SERVICES

What's included?

- Pilot deployment of Episode Analytics & Continuous Improvement for three months
- Comprehensive report and roadmap to help you determine:
 - which bundles to participate in
 - what the likely financial impact will be
 - what strategies to employ to reduce care variation, improve quality and ultimately improve margin
- Opportunity to deploy full solution to track bundle performance and ongoing opportunities for improvement at a reduced subscription fee
